## 1. Bids will be processed promptly

Your time is valuable and so is mine. I offer you an interview, with your maintenance supervisor or whoever is in charge of this oversight. I can be available for an interview usually within 24-48 hours. I will waste no time getting back to you with my finished contract (7-10 days). We will take a pro-active approach to remain in front of many situations before they ever develop, in many cases and quickly respond to the unforeseen.
